Students were asked to volunteer for the roles of President, Vice-President, Secretary, PRO and person in charge of Website. The rest of the team indicated agreement through show of hands

2. The students started working on the action plan for scholastic year 2013-2014:

The students were divided into 3 groups. They were given a copy of the Seven EkoSkola Steps and asked to brainstorm about how they could implement them. Then they pooled their ideas as a committee and came up with the following points:

2.1 Informing & Involving:

- Less circulars as they are a waste of paper and students take no notice of them anyway; instead, one circular per classroom and anyone who wants a copy goes to the secretary; circulars will also be sent by email.
- EkoSkola assembly once a week.
- Better use of notice boards
- EkoSkola pages on school website
- Presentation by EkoSkola members to Form 1-2 students

2.2 Environmental Review:

The environmental review is to take the form of a questionnaire to be filled in by students (Forms 2-5), teachers, and a sample of parents. The idea is to determine how healthy students think our school is, and how we can promote a healthier lifestyle.

2.4 Activities:

- Waste separation
- Milied Li Jimla I-Club
